[Alfa Romeo Engine & SPICA Fuel Injection Service and Parts](#)

The SPICA injection pump is generally very reliable. There is only one injection pump failure that is serious enough to cause engine stoppage and is common enough to be of practical concern. By far, most problems experienced by SPICA owners are fuel supply related and not within the injection pump itself. When troubleshooting, rule out ignition causes first,

The Spica fuel injection is a mechanical system which uses a series of levers to vary mixture according to temperature. The thermostatic actuator is the temperature sensor. The temperature sensor we are all familiar with is a thermometer. As temperature goes up, mercury in the glass bulb expands and is forced up the tube.

Diesel fuel behaves differently from gasoline, but like most Euro injection pumps, SPICA resembles a diesel unit. The pump is belt-driven from the crankshaft at half engine speed. It supplies...

[The Lost Art of Mechanical Fuel Injection - Road & Track](#)

When Alfa Romeo introduced Spica fuel injection on US cars, it was considered a mystery and the belief, at the time, was that it was unreliable and beyond the understanding of the average enthusiast. Wes Ingram changed this perception, and through his book and rebuild service has kept many cars from being converted to Weber carburetors.
